---

**JOB TITLE:**           **MECHANIC**  
                          **Motor Transport Division**  
                          **Public Works Department**

**JOB NUMBER:** 04-128;  
                          04-129

**SALARY RANGE:** Grade: 534-A

**Entry Level:** \$12.59 per hour  
**Market Level:** \$13.27 per hour

---

### **ESSENTIAL FUNCTIONS:**

- Perform diagnostic testing and/or problem solving in the repair of a variety of City/BLW vehicles and heavy equipment. Repair or rebuild both gas and diesel engines.
- Perform diagnostic testing and/or problem solving in the repair of specialty equipment including but not limited to fire truck water pumping systems, hydraulic systems such as cranes/boom, garbage truck compactors and small equipment such as air compressors, generators, tamps, chippers, boring machine, and electronic signal arrow boards.
- Perform diagnostic testing and repair on vehicle electrical systems. Related electrical wiring repair and installation work includes emergency specialty equipment such as blue lights and high intensity strobes and power packs.
- Review vehicle or equipment manufacturer's diagrams or computer dbase to identify the correct replacement parts; arrange delivery with the supervisor.
- Perform diagnostic testing and repair of emissions systems to meet Georgia state emission standards.
- Perform scheduled preventative maintenance as assigned and report list of items and parts repaired or replaced to the supervisor.
- Perform occasional welding and fabrication of fire truck body parts as assigned.
- Install, replace or repair police vehicle parts such as siren boxes, shotgun racks, security bars/screens, and fire truck apparatus such as ladders, hose reels, and other related equipment.
- Clean up work area after completion of each job and check, clean and inventory shop tools. Report tool needs or problems to supervisor.
